Istanbul Astrology Conferences (IAC '25) - Global Change

Last year, we successfully held the **first Istanbul Astrology Conferences (IAC '24)** with an incredible team. We focused on **financial astrology and progression techniques**, bringing together esteemed astrologers from around the world who have made a lasting impact through their international research. Our event **not only captivated our participants but also gained significant attention from the astrology community**. News about our academy and conference was featured in **local media outlets such as TV100 and HaberTürk TV**. We proudly shared this achievement, receiving valuable recognition both nationally and internationally.

And now, we couldn't ignore the overwhelming demand to continue this excitement! With **your enthusiasm and our academy's commitment**, we are coming together once again with a **remarkable team and a strong lineup of experts**. This year, we are meeting under a brand-new theme that resonates with our participants' interests—exploring how **changing planetary cycles shape global and personal transformations!**

WHAT KIND OF EXPERIENCE AWAITS US THIS YEAR?

Planetary cycles are changing everything. In the coming period, Uranus will move into Gemini, Pluto into Aquarius, Neptune into Aries, Jupiter into Cancer, and Saturn into Aries. These transitions will bring rapid and complex changes that will be challenging to track. As astrologers, we are preparing to become the heralds of these transformative shifts. Equipping ourselves with astrological knowledge on the brink of these transitions will grant us a greater awareness. The evolving sky will have profound effects on various areas, from technology to art, economy to politics, justice to health, and social transformations to personal awareness. Together, we will explore how historical cycles have influenced us, what these transitions brought in the past, and what we can expect in the future. We will do this by integrating both the ancient wisdom of traditional astrology and modern astrological techniques.

**A unique and
immersive three-
day intensive
astrology event
awaits us!**

The Astrological Codes of Global Change 🌍

We are excited to welcome **esteemed figures of the astrology world** back to **Istanbul!**

The Istanbul Astrology Conferences 2 (IAC2 '25) stands out as a meeting point for astrology enthusiasts, researchers, and anyone who wants to embrace change with awareness. Are you ready to listen to the guidance of the stars to explore global change from an astrological perspective and prepare for the future?

Why Should You Attend IAC2?

🎓 Exclusive Interaction with Leading Astrologers:

- As the Academy of Experimental Astrology, we have planned a knowledge-packed and experience-focused event this year. We have invited experts in the field to share their years of experience, research, and personal studies with us firsthand.

🌍 A Unique Event That Bridges International Connections:

- Connecting with esteemed astrologers from different countries through exclusive workshops is not always easy. Visiting each of them in their own country and engaging in their work would be a time-consuming and costly journey. However, now we have the unique opportunity to interact directly with top experts in our own language, with simultaneous translation, allowing for seamless communication and knowledge exchange!

💎 VIP Experience and Exclusive Participation:

- As participants, we will receive our personalized name badges at the entrance and take our reserved seats in the Safir Hall of our venue. Additionally, at the end of the event, we will be awarded special participation certificates personally signed by our international guests. These certificates will add value to our careers, enhance our CVs, and grant us prestige by connecting our work to the international astrology community!

Consecutive Interpretation

Our three-day intensive international astrology event awaits us with Turkish interpretation!

On the first day, we will be immersed in a knowledge-packed seminar series from 9:30 AM to 5:30 PM. On the second and third days, we will have three-hour workshops. All sessions will be supported by professional consecutive Turkish interpretation.

Why Should You Attend IAC2?

- ◆ Coffee Breaks and Open Buffet Snacks: Throughout the day, we will refresh our energy while having the opportunity to network with our guests and fellow astrologers.
- ◆ Direct Interaction: One of the most valuable aspects of the event is the opportunity to engage directly with international astrologers and explore potential new projects.

- ◆ We will immerse ourselves in a unique environment where we can expand our network, bring our astrological perspective to the international stage, and connect with fellow astrologers. This will be an invaluable opportunity to exchange ideas, develop new projects, and establish meaningful connections within the astrology community.

What Awaits Us?

Although planetary transits are our main theme this year, each astrologer will personally share their valuable research, books, publications, and resources within their area of expertise.

- ◆ **Christeen Skinner (UK)** ◆ **Tania Daniels (DE/IT)** ◆ **Lianne McCafferty (UK)**
◆ **Rod Chang (UK)** ◆ **Zerrin Zindancioğlu (TUR)** ◆ **Kenan Yasin (TUR)**

At IAC2, we will explore astrology through cutting-edge techniques and deep insights from top astrologers worldwide.

- ◆ Planetary Occultations – Unlock hidden celestial influences shaping global and personal transformations.
- ◆ Financial Astrology – Christeen Skinner will analyze planetary cycles' impact on economic trends, markets, and wealth indicators.
- ◆ Heliocentric Charts – A Sun-centered perspective on planetary movements and their cosmic significance.
- ◆ Transneptunian Planets (TNPs) – Discover their role in Uranian astrology and predictive techniques.
- ◆ Declinations & Latitudes – Explore planetary alignments beyond the ecliptic and their astrological importance.

This conference is a unique opportunity to dive into advanced methods, expand your knowledge, and gain practical insights for personal and professional astrology practice. 🌍🌟

Istanbul Astrology Conferences (IAC '25) - Global Change

Our event will take place in Istanbul, one of the world's most unique cities, bringing together East and West, classical and modern techniques, and even two continents physically. Üsküdar's Volley Hotel will host us with its comfortable facilities, offering easy transportation, a central location, and a peaceful environment away from the city's hustle and bustle.

📍 **With its central location and easy accessibility, our hotel provides an ideal setting for both accommodation and the event.**

Participants will also have the chance to immerse themselves in Istanbul's rich historical and cultural heritage. They can enjoy a refreshing boat tour on the Bosphorus, explore the mystical Basilica Cistern, and experience the vibrant atmosphere of the Grand Bazaar for shopping.

Additionally, they can visit iconic landmarks such as Hagia Sophia and the Blue Mosque in Sultanahmet Square and witness the breathtaking views while passing under the Bosphorus Bridge.

✨ **Get ready for a unique experience! IAC2 awaits us with knowledge, discovery, and unforgettable moments! ✨**

The program will take place all day at the Safir Conference Hall in Üsküdar's Volley Hotel, right in the heart of Istanbul, and will be open to all participants. Volley Hotel offers a comfortable stay for astrology enthusiasts who wish to immerse themselves in the city's history and atmosphere.

☀️ We are stepping into an unforgettable experience with our colleagues—one that will be remembered for years! Learn astrology from top experts, integrate new research and insights into your knowledge, gain a deeper perspective, and receive personally signed certificates through direct interaction. IAC2 awaits us!

LATITUDE AND THE SHAPE OF OUR BODIES: THE FORGOTTEN LINK IN ASTROLOGY

- Since our zodiacal signs are derived from the constellations, it is only natural to question how their physical extension—namely their northern or southern latitude—plays a role in astrological interpretation. But what if this influence extends beyond astrology and is directly linked to our physical appearances?
- If we take the famous quote from the Emerald Tablet, attributed to Hermes Trismegistus—"As above, so below; as within, so without; as the universe, so the soul"—seriously, then we must consider that the extension of the ecliptic above or below holds significance in everything these signs govern, including human physiognomy.

DAY 1
JUNE 13, 2025

PRESENTATIONS

- In this ground breaking presentation at Istanbul Astrology Conferences 2 (IAC 2), Tania Daniels will explore the forgotten relationship between latitude and physiognomy. This eye-opening discussion will provide a fresh perspective on astrology.
- Moreover, this topic is a key focus of Tania Daniels' upcoming book, where she delves into extensive research on the subject. As one of the first researchers to explore this field in depth, she will share exclusive findings with us at IAC 2, making this presentation an unmissable event for astrology enthusiasts.
- Prepare to be amazed by the unseen connections between astrology, geography, and the very structure of our bodies!

12.30 -13.30 - Lianne McCafferty (UK)

INTELLECTUAL REVOLUTION

- Uranus enters Gemini for a few months in 2025 before ingressing fully from 2026-2033.
- It will join Pluto and MakeMake in the element of Air, building to a powerful long-term Grand Air Trine.
- It will also activate the degree of the Great Air Mutation of 2020 which occurred at 00 Aquarius. In this talk we will explore how this cosmic shift might rapidly revolutionize our collective definition of intellect and consciousness.
- And on a personal level, how we learn and communicate might be transformed.

THE GLOBAL ECONOMIC OUTLOOK: NAVIGATING THE NEW FINANCIAL UNIVERSE

- The global economy is rapidly shifting from traditional systems to digitalization and the emergence of new financial paradigms. Astrology offers a unique perspective for understanding these transformations and shaping financial decisions.
- In this seminar, Christeen Skinner will examine global economic trends through major planetary cycles and astrological indicators. From the rise of digital currencies to market uncertainties and financial cycles, she will provide insights based on historical examples and future forecasts.
- Don't miss this opportunity to gain a deeper understanding of the future financial landscape and navigate your way with confidence!

PLANETARY OCCULTATIONS: A JOURNEY INTO THE DEPTHS OF ASTROLOGICAL VISION

- The unique dance of the heavens opens the door to discovering the secrets of the universe. Planetary occultations occur when one celestial body partially or completely obscures another, carrying profound astrological significance. These events create shifts in planetary energies and influences, playing a pivotal role in shaping our lives.
- In astrology, occultations symbolize the balance between consciousness and the subconscious, particularly in the context of planetary transitions and interactions. Events during these periods offer deep insights into personal growth, relationships, and spiritual transformation. In this presentation, we will explore the astrological impact of planetary occulta-

tions, their manifestations in the Zodiac, and how they reflect in individual experiences. Get ready to embark on a mystical journey, strengthening our connection with the cosmos like never before!

HELIOCENTRIC CHART DYNAMICS AND SOLAR ACTIVITY OBSERVATION

- Unlike the Earth-centered (geocentric) perspective we are accustomed to in astrology, heliocentric charts offer a different lens to interpret planetary movements. In this session, we will explore what these charts reveal and how analyzing planetary motions from a Sun-centered perspective leads to new insights.
- Through chart practice, we will address key questions and experience firsthand how this often-overlooked astrological technique provides a crucial yet underutilized perspective. Additionally, we will examine solar activity cycles, gaining a deeper understanding of their impact on astrological interpretations.

17.00 – 17.15 – Graduation Ceremony

- During the closing hours of the Istanbul Astrology Conferences, we will hold our graduation ceremony. A certificate presentation will take place for the graduates and students of the Academy of Experimental Astrology who have successfully completed their training in various astrological disciplines.

17.15 – 17.30 – Closing Speech

- Our participants will have the opportunity to take commemorative photos with our astrologers, while our instructors will deliver inspiring speeches. After the closing speeches, we will recharge our energy for the next two days of workshops and hands-on sessions.

Juno adds an invaluable layer of insight to chart interpretation, but how much do you really know about this powerful asteroid? Juno represents far more than just the ideal partner in synastry; she also embodies the relationship with our health, our intuition and rights within the world. In this workshop we will explore the profound insight Juno brings to natal, mundane, medical and spiritual astrology.

Lianne McCafferty (UK)

She holds the Mayo Diploma with Distinction in both natal and mundane astrology and is also a member of APAI. She has been a long-time tutor at the Mayo School of Astrology and was recently elected to the Board of the Scottish Astrology Association.

Her first professional career began in scientific research and development at a leading international company while simultaneously competing at a high level in equestrian sports. Eventually, her equestrian career evolved into a full-time profession as both a professional rider and coach, holding a general UKCC sports qualification. This experience provided her with invaluable skills in teaching, mentoring, and navigating the challenges of professional sports and life itself. Combining a scientific, analytical mind with natural instinct, intuition, and empathy, she has seamlessly integrated these skills into astrology—both as a writer and consultant. She is based in the Northeast of the UK, offering international consultations, and has a special interest in how astrology can enhance performance in sports.

Beyond her professional work, she leads a busy family life and is also a talented musician. She is the author of "Juno: More Than Meets the Eye."

COMETS IN ASTROLOGY WORKSHOP

Comets always surprise us when they suddenly appear in the sky, although in ancient astrology comets were associated with taboos and bad omens. However, if the astrologer cannot find them in the astrology software, it is difficult for us to use them in the chart.

In this workshop Rod will discuss what ancient astrologers took into account when making predictions about comets. And we will look at some famous comets and the events associated with them. More importantly, we will learn how to use NASA's astronomy program to generate ephemeris for each comet so that we can interpret them. We will also learn how to use Stellarium and other stargazing software to help us observe the comets.

Rod Chang (UK)

Rod Chang has over 20 years of astrological experience. He studied at the Faculty of Astrological Studies in London and expanded his knowledge through self-study and practice. Specializing in traditional astrology, he prefers a humanistic approach to astrology.

For over a decade, he has been teaching Western astrology in Mandarin and is the author of seven astrology textbooks in Chinese. Rod was also the in-house astrologer for three seasons of a popular daytime TV show in Taiwan.

Since 2015, Rod has been a speaker at various international conferences in Poland, the UK, and most recently, the 2016 Australian FAA International Astrology Conference.

Rod and Jupiter Lai co-founded the Academy of Astrology (AOA), which initially launched in Taiwan and Hong Kong before expanding to China and Japan. He is also the founder of the newly established UK Academy of Astrology, making AOA accessible to English-speaking astrology students.

Rod hosts live podcast sessions with guest speakers on his YouTube channel (AOAUK1) and Instagram (@AOAUKROD).

UNLOCKING THE SECRETS OF DECLINATION WITH TANIA DANIELS!

The Sun's declination is not just an astronomical concept—it defines the equinoxes and solstices and sets the boundaries for planetary motion. But what if it holds deeper secrets that could revolutionize your astrological understanding?

In this 2-hour workshop (3 hours with translation), Tania Daniels will guide us through the world of commanding and obeying signs. Why do some signs rise straight while others rise crookedly? What does this mean for chart interpretation?

We'll explore the lunar declination cycle, including minor and major lunistics, and their profound connection to equinoxes, solstices, and natural cycles. Ancient civilizations used lunistics alongside equinoxes to create gigantic celestial calendars for timekeeping, weather forecasting, and understanding planetary cycles.

This workshop offers valuable insights from Tania Daniels' research and will help you integrate declination into your own studies.

Join us at IAC 2 and expand your knowledge with groundbreaking insights into declination!

 Spaces are limited—reserve your spot now!

Tania Daniels (DE/IT)

Tania Daniels is a member of the International Society for Astrological Research (ISAR) and the Association of Professional Astrologers International (APAI). She holds a degree in business management and became interested in astrology in 1998 after analyzing Leonardo da Vinci's The Last Supper from an astrological perspective. In 2002, Tania completed the psychological astrology training at the German Astrological Society (DAV) in Berlin. However, it was not until 2009, when she discovered traditional astrology through Deborah Houlding, that she found her true passion. Tania earned her STA Horary Diploma in 2014 and has since moved away from psychological astrology.
